

Experienced Project Engineer required

Be part of an exciting, growing team

Following a very successful 2007 and building on a strong pipeline of six consented sites and numerous others pre-consent, Your Energy is looking to hire a Project Engineer during the early part of 2008.

Project Engineer

- Central London location
- Competitive salary and benefits package

Supporting the development team, you will provide ongoing technical advice to ensure that the projects are technically sound such that, upon achieving planning permission, their implementation can proceed smoothly through to operation. Focus of the role will be on turbine selection, access issues, grid and civil/electrical engineering aspects.

Suitable candidates will have:

- an appropriate engineering degree and
- at least five years experience in the industry (either in development or turbine supply).

Based in our London offices with some travel throughout UK and occasionally Europe and North America. You will report directly to the Managing Director. Your Energy Ltd is part of the Mistral group of companies, which now amounts to more than 30 professionals active in the field and over €200 million of investment capital under management.

All applications treated with strictest confidence. Please email info@your-energy.co.uk before 22 February 2008 with full CV, references and cover letter.
